Please answer the following questions so that a customer service representative can ... Kinetic Theory | CIE IGCSE Physics Revision Notes 12. Use the kinetic theory to explain why tire pressure increases when more air is added to a tire. Adding more gas particles to a container increases the gas pressure because there are more gas particles hitting the walls of the container. According to the kinetic theory, these collisions with the walls of the container are what cause gas pressure. 9-05a,b Episode 901 Review wkst-Key Instructions Before viewing an episode, download and print the note-taking guides, worksheets, and lab data sheets for that episode, keeping the printed sheets in order by page number. During the lesson, watch and listen for instructions to take notes, pause the video, complete an assignment, and record lab data. See your classroom teacher for specific instructions.
